### About the App

YouTube Kids is a kid-targeted version of YouTube that has TV shows, educational videos, and content created by users. It is made for kids preschool to age 12. The app allows you to create individual user profiles for each of your kids, so each child can log in and watch videos geared toward their age. Another great feature is the timer, which lets you set a limit for your kids to be on the app.

### How do I talk to my child/student?

The best way to be informed about your child/student's Instagram account is to ask them questions.

#### Here are a few conversation starters:

- Why do you like being on YouTube Kids?
- What videos do you like watching?
- Does watching these videos make you happy?

### How to Review and Reset

We have created a checklist of some of the most important things you should review with your child/student's account.

#### Reset Checklist

- Set Up Parental Controls
- Enable Content Filters
